Passage 1

Good morning, everyone! Today I'd like to share something about this activity.

I started to realize the importance of a low-carbon life last year after watching a news report about environmental pollution. The purpose of our class activity is to encourage us to save energy and protect our environment by starting from small things.

Through this activity, I have developed some good habits. For example, I always bring my own water cup instead of using plastic bottles. I also try to save paper and sort garbage in my daily life. In my opinion, even small actions can make a big difference. Let's work together to make our world greener and more beautiful.

Thank you!

Passage 2

Hi, Peter!

Thank you for your help with my English. Following your advice, I now practice listening daily by watching TED talks. Surprisingly, I can understand 80% of the content now!

About Spring Festival, we celebrate it by having family reunions. On New Year's Eve, we make dumplings together and watch CCTV Gala. At midnight, spectacular fireworks light up the sky. Children receive red envelopes with lucky money.

You'll love our traditional lion dances! I can't wait to show you around during your visit.

I'm looking forward to your coming to China.

Yours,

Li Hua

Passage 3

More Skills, Better Life

We all know that life skills play a very important role in our daily life. With more skills, our life can be easier and better. When I was very young, I learned to cook. Now I can make some dishes for my parents when they come back home after work.

I think middle school students should learn some life skills like cooking and washing clothes. In this way, we can take good care of ourselves and can sometimes help our parents with chores at the same time. What's more, it can better improve our independence and it's useful to help us develop a sense of responsibility. We are a part of our family, so we should do our part. It is not a waste of time. It helps us know the idea of fairness.

So we should learn more life skills and try to help with more chores at home. Then we can live more happily.
