Passage 1	讲述一位清洁工张建娜自学英语的故事。
Passage 2	河北保安刘政为实现律师梦，利用北大资源自学、屡败屡战，终通过法考并入职律所的励志故事。
Passage 3	讲述女飞行员 Amelia Earhart 的勇敢经历、飞行成就及她环球飞行失踪的故事

Passage 1

“Hello! My name is Zhang Jianna. I’m a city cleaner from Beijing’s Chaoyang Sanitation (环卫) Department.” Still in an orange uniform and a confident smile on her face, the 50-year-old fluently (流利地) introduces herself in English throughout a video. This has sparked curiosity about how an ordinary-looking sanitation worker can master such impressive English skills.

With only a high school diploma (毕业文凭), Zhang had worked as a waitress and a sales clerk. In 2012, she became a sanitation worker in the embassy (大使馆) area of Sanlitun in Beijing.

One day in 2014, a foreigner walked up to Zhang outside an embassy, gently tapping her shoulder and speaking a long string of unfamiliar words to her. ★. The foreigner seemed to sense her embarrassment and gestured for her to look ahead, giving a thumbs-up while repeatedly saying, “Good, good!” After such a moment, Zhang made up her mind to learn English. “My goal is quite simple. I just want to help whenever someone is in need, whether it’s giving directions or introducing the embassy area I’m responsible for.”

Thus, at the age of 40, Zhang picked up English from her children’s textbooks, starting with basic words and phrases commonly used. While other sanitation workers rested, she memorized vocabulary and practiced speaking. Upon arriving home after work, she would note down new knowledge points and go over them until completely understood. Over the years, Zhang filled over a dozen notebooks with her notes.

Memory posed her biggest challenge: “At an older age, I would easily forget the words I learned the day before.” So Zhang reviewed words at night and repeated them one more time the next morning. She also

downloaded over a dozen English learning apps on her smartphone. To date, Zhang's had a vocabulary of around 3,000 English words, enabling her to communicate fluently with foreigners.

Zhang's ambition (野心) doesn't stop there. "I've heard that French is beautiful, and I'd like to learn it!" she says.

1. What might impress people most after watching the video?

- A. Zhang's rich working experience.
- B. Zhang's low education.
- C. Zhang's excellent English ability.
- D. Zhang's unusual look.

2. Which of the following can be put in ★?

- A. The two chatted with each other happily
- B. Zhang got the message soon
- C. He was appreciating Zhang's work in keeping the streets clean
- D. Zhang just stared at him in confusion

3. How did Zhang learn English by herself?

- ① Take notes of new knowledge points and review them.
- ② Practice English conversation with her children.
- ③ Ask foreigners for help.
- ④ Use some English learning apps on her smartphone.
- ⑤ Memorize words and phrases in her spare time.

- A. ①②④
- B. ①④⑤
- C. ②③④
- D. ①③⑤

4. What can we learn from the passage?

- A. Zhang learned English for she was responsible for introducing the embassy area to foreigners.
- B. Zhang has mastered around 3,000 English words in the past ten years.
- C. Zhang's efforts have paid off all because of her great love for her job.
- D. Aging might not stop Zhang from learning a foreign language.

5. The best title for the passage would be "_____".

- A. A Sanitation Worker's English Learning Journey
- B. An Ordinary Job, A Great Ambition
- C. To Talk With Foreigners Fluently
- D. The Biggest Challenge in Life

Passage 2

Liu Zheng, 33, grew up in a countryside family in Hebei province. During his time at a private university, Liu did different kinds of jobs to support himself. But Liu had a bigger dream to become a lawyer. He believes “knowledge changes life”. After graduating in 2015, he got a job as a security guard at Peking University. He found time to audit (旁听) law courses and collected waste textbooks from students to teach himself.

Liu didn’t give up on studying law. He used old textbooks and kept on studying whenever he could. Making up his mind to show his ability, Liu set his goal on passing the law exam. In 2016, he began preparing for the law exam while studying for a part-time master’s degree at Renmin University of China.

In 2021, Liu offered to move from his security guard position to the front desk at the law school. During this time, he met many law students who gave him notebooks and discussed legal topics with him. Law school professors also gave him the latest textbooks and invited him to audit courses. Professor Zhang Shuanggen once wrote in a textbook he gave Liu, “May you become a confident and excellent lawyer.” Thankful for the support he received, he said, “I truly believe people are willing to help those who are positive.”

Liu had failed the law exam five times since 2016, and finally passed it in 2022. In January, Liu left Peking University and began working at Beijing Weiheng Law Firm, one of the top law firms in the city. Liu’s journey has inspired many people on social media.

1. How did Liu Zheng work towards his lawyer dream?
 - A. By having law courses on the Internet.
 - B. By learning from his family members.
 - C. By making good use of his workplace.
 - D. By only studying in a private university.
2. What was Liu’s clear goal according to paragraph 2?
 - A. To succeed in the law exam.
 - B. To show his working ability.
 - C. To finish his master’s degree.
 - D. To get a better part-time job.
3. Why did Liu move to the front desk at the law school?
 - A. To make more money.
 - B. To teach law courses to students.
 - C. To help other people.
 - D. To get close to the law world.
4. What can be learned from the last sentence of paragraph 3?
 - A. Where there’s a will, there is a way.
 - B. Hard work pays off.
 - C. A positive mind gets more help.
 - D. Practice makes perfect.
5. What would be the best title for the passage?

A. Confidence Shapes the Future

B. A Dream Drives the Journey

C. Friends Give Great Power

D. Strangers Light Up the Road

Passage 3

Amelia Earhart didn't back down. The 21-year-old was attending an air show in Canada in 1918 when a plane dived (俯冲) right toward her. Instead of running away, she faced the plane down.

That wasn't Earhart's only brave moment. She was born in Kansas in 1897. During World War I, she volunteered to treat the wounded (伤员) in Canada in 1917. Nearby were pilot practice fields, where she discovered her deep love for flying. After taking her first flight in 1920, she started working part-time jobs to pay for flying lessons. In 1923, she got an international pilot's license, becoming one of only 16 women pilots in the world.

In the 1920s, aviation (航空) was still new and most pilots were men. Earhart wanted to change that and in 1931 she became the first president of the Ninety-Nines, an organization of women pilots. In 1935, Earhart became the first person to fly alone across both the Atlantic and Pacific Oceans. Between 1930 and 1935, Earhart set at least five women's flying records.

But Earhart wanted to do something even bigger. On June 1st, 1937, she and Fred Noonan took off from Florida, trying to fly 29,000 miles around the world. By June 29th, they had only 7,000 miles to go. But something happened as they crossed the Pacific Ocean. They headed toward Howland Island on July 2nd, 1937. They were never seen again.

President Roosevelt sent 66 aircraft and 9 ships to look for them, but the fliers vanished. The official search ended on July 18th, 1937, but today people are still trying to find out what happened to the woman who changed aviation history.

1. How does the author start the passage?

A. By describing a scene.

B. By giving an example.

C. By expressing an opinion

D. By introducing a problem.

2. Which is the correct order of Earhart's experiences?

①Getting her pilot's license. ②Volunteering to treat the wounded.

③Attending an air show in Canada. ④ Flying alone across the Atlantic Ocean.

A. ③-④-②-①

B. ②-③-①-④

C. ①-②-④-③

D. ④-③-①-②

3. What does the underlined word "vanished" in the last paragraph probably mean?

A. Escaped.

B. Replied.

C. Failed.

D. Disappeared.

4. Earhart is considered to change the history of aviation because_____
- A. she was the first woman to get the international pilot's license.
- B. she was brave enough to face the plane down.
- C. she has made a big difference as a woman pilot.
- D. there was something unexpected happening to her.
5. What can be the best title of the text?
- A. A Brave Woman Pilot B. The Land of the Dead
- C. An Organization of Women Pilots D. The Unsolved Search

Passage 1	介绍了湖北宜昌作为全球水电之都、生态环境改善的典范以及文化遗产与开放的代表
Passage 2	介绍了杭州六大科技公司（六条龙）在人工智能、机器人、脑机接口、电子游戏等领域的成就
Passage 3	介绍了 Releaf Paper 公司用落叶制作环保纸的创新方法

Passage 1

As the lifeline of Chinese civilization (文明), the Yangtze River has created special Eastern beauty. Yichang, a city in Hubei province, stands as a clear example of how human wisdom, nature and culture can live together in peace.

Yichang is a global capital of water power. It is home to the Gezhouba Dam and the Three Gorges Dam—the world's largest water power project. Though covering only 0.2% of China's land, this city provides clean, low-carbon electricity for many parts of the country. The sound of machine parts is not just industrial noise. It is the “green heartbeat” of the Yangtze, showing a promise to protect the river. Every year, the clean energy it produces helps cut down a huge amount of pollution, setting a good example for the world.

Environmental protection has also brought the Yangtze back to life. The Yangtze finless porpoise (江豚), once in great danger, now jumps in the waves. These “smiling angels of the Yangtze” are a powerful sign of the river's recovering ecosystem, a reminder that human efforts can bring back natural balance.

Culturally, Yichang connects past and present. Over 2,300 years ago, poet Qu Yuan wrote Tian Wen by the river, planting great spirit in Chinese culture. ★ Today, Yichang's navel oranges, called “diplomats on the Yangtze”, travel globally carrying the city's openness to the world. They are loved by people in many countries and become a sweet link between Yichang and the world.

In short, Yichang is a small model of China's vision: a place where natural wonders, engineering feats, and cultural heritage come together to form the "green heart" of the Yangtze, showing the world the beauty of sustainable development.

1. What makes Yichang the "global capital of water power"?
 - A. Its perfect geographical position in central China.
 - B. Its two big water power dams including the Three Gorges Dam.
 - C. The large number of tourists it receives every year.
 - D. The special beauty of the Yangtze River near the city.
2. The underlined word "recovering" in Paragraph 3 probably means _____.
 - A. becoming worse
 - B. disappearing completely
 - C. staying the same
 - D. returning to a good state
3. Which of the following can be put in the ★ ?
 - A. The river has been an inspiration for poets for centuries.
 - B. This poetic spirit still lives on in Yichang's modern beauty.
 - C. Navel oranges are the most famous fruit in Hubei province.
 - D. Qu Yuan is one of the greatest poets in Chinese history.
4. Which of the following is TRUE about Yichang according to the passage?
 - A. It covers 2% of China's land area.
 - B. Its navel oranges are mainly loved by Chinese people.
 - C. The finless porpoise is a symbol of a better ecosystem.
 - D. It is the first city to build a dam on the Yangtze River.
5. Why does the writer mention Qu Yuan and Yichang's navel oranges?
 - A. To show Yichang's rich culture and open spirit.
 - B. To tell stories about ancient Chinese poets.
 - C. To explain why Yichang is famous for its fruits.
 - D. To compare natural wonders and human achievements.

Passage 2

In recent years, six amazing companies from Hangzhou have made a big splash in the world of technology. People call them the "Six Dragons". These companies are doing great things in fields like artificial intelligence (AI),

robotics, brain-computer interfaces, and video games. DeepSeek is a leader in AI.

DeepSeek-V3 model is cheaper to make than other models, but it works better. This has made a big influence on the global AI market. Meanwhile, Unitree Technology and DEEP Robotics are changing the world of robots. Unitree's robots can move like animals and have amazed people around the world. DEEP Robotics makes robots that can work in dangerous places to keep people safe. Both companies are making robots smarter and more useful.

BrainCo is another important company. It makes devices (设备) that can read brain activity and help people relax. For example, it makes headbands that help users practice mindfulness (意念), which is a good example of how these devices can help people relax. Many Core also plays a big role. Its 3D data platform helps other companies develop better AI technology.

Game Science has made waves in the gaming industry with its hit game "Black Myth: Wukong". The game is based on the famous Chinese story called "Journey to the West." The game's success shows how Chinese developers can combine culture and technology in new ways.

Hangzhou's success is no accident. The local government has created a friendly environment for businesses, with policies like tax breaks (减税) and money for startups (创业公司). Hangzhou also has a lively culture and good schools, which attract talented people. This combination (结合) has turned Hangzhou into a global center for innovation (创新).

Other cities in China, like Beijing, Shanghai, Shenzhen, and Guangzhou, are also home to many leading tech companies. Together, these cities are driving China's rapid technological progress. Hangzhou's "Six Dragons" are not only a symbol of the city's success but also a testament to China's growing influence in the global tech world.

1. The DeepSeek-V3 model's advantage lies in the fact that _____.
A. it is the most advanced AI model in the world B. it costs less to produce yet performs better
C. it is the only model made by DeepSeek D. it has a special appearance
2. Unitree Technology's robots are special because _____.
A. they can imitate (模仿) animal movements B. they can communicate with humans fluently
C. they are the smallest robots in the world D. they can create artworks
3. BrainCo's headbands are designed to _____.
A. improve users' memory B. help users relieve stress
C. give users physical strength D. teach users new languages
4. Which of the following is NOT the reason for Hangzhou's success in technology?

- A. Local government offers tax breaks and policies.
 - B. Hangzhou has ancient buildings with long history.
 - C. Hangzhou attracts talent with culture and schools.
 - D. Startups get funding in Hangzhou.
5. Which would be the best theme of the passage?

Passage 3

Paper is one of the basic products of the modern world. From books to toilet paper, everyone uses paper in daily life.

According to a report, 40% of the 15 billion trees cut down are used to produce paper every year. More importantly, the paper-making process uses lots of water and causes air pollution.

This is where Releaf Paper comes in. The company has found an ingenious way to make environmentally friendly paper. Instead of using wood to make paper, it uses leaves. The company was set up by Valentyn Frechka. He has always been interested in biochemistry (生物化学), which led him to try making paper from grass. When that failed, he moved on to leaves and achieved success.

So how is the paper produced? Some European cities collect leaves from their streets and send them to Releaf Paper. Then, using mechanical (机械的) and chemical processes, the company is able to create one ton of cellulose (纤维素) from 2.3 tons of leaves. Cellulose is the material that paper is made of. Lignin (木质素), the leftover (残留物) from the processes, is then sent back to the cities to be used as fertilizer (化肥). The new processes use 15 times less water and cause less air pollution than the traditional paper producing model.

“We are working only with the leaves that we get from cities because we cannot use the leaves from the forest. It’s not easy to collect them in the forest, and there is no need because there is an ecosystem,” Frechka said. “We get leaves for making paper and return lignin to the cities. It’s like a win-win model.”

1. What does the underlined word “ingenious” mean?
- A. Long.
 - B. Expensive.
 - C. Traditional.
 - D. Creative.
2. Which is the correct order to show Releaf Paper’s way of making paper?
- a. create cellulose b. send back the leftover to the city c. collect leaves from streets d. make paper

- A. c-a-d-b B. a-d-c-b C. c-b-a-d D. a-c-d-b

3. Releaf Paper doesn't use leaves in the forest probably because _____.

- A. they are too far to get
B. doing this will cost a lot of money
C. there are more leaves in the streets than in the forests
D. it's hard to collect them and the nature can deal with leaves

4. Compared with the traditional paper producing model, Releaf Paper might

- A. cause less air pollution but use more water
B. help make our planet a greener place to live in
C. make paper more easily and sell them at a higher price
D. no longer use machines to produce paper

5. What would be the best theme picture of the passage?

——● 猜想六 选词填空 ●——

Passage 1	介绍地球一小时的缘起与宗旨，号召全球携手践行环保行动。
Passage 2	多种动物依靠伪装拟态自保，尽显大自然生物进化的智慧。
Passage 3	本文介绍了人类利用风能的悠久历史。

Passage 1

阅读下面短文，用方框中所给的单词或短语填空，使短文在结构、句义和逻辑上正确。（提示：方框中有两个单词或短语是多余的。）

set out/ turn off/ candles/ protection/ beautiful/ spread/ boring

Earth Hour, organized by the WWF, is held on the last Saturday of March yearly. It asks people to ____1

lights and electrical devices for one hour. It aims to raise awareness of climate change and earth ____2____.

Starting in Sydney in 2007, it ____3____ globally by 2008. In 2019, over 180 countries and over 6,000 cities joined. Many Chinese cities also took part, with shops closed and people using ____4____.

Though the world goes dark briefly, it's a ____5____ moment to act for the planet. Now, WWF calls on everyone to make small daily changes for the environment.

Passage 2

阅读下面短文，用方框中给的单词或短语填空，使短文在结构、语意和逻辑上正确。(提示：方框中有两个单词或短语是多余的。)

clever / look like / time / well / hides / leaf / dry

Animals love playing hide-and-seek! To stay safe, they hide by looking like the things around them. In forests, a mantis (螳螂) ____1____ among leaves. Under the ocean, a goby fish matches the sandy seafloor ____2____. Rainforests have hiding animals, too. Look closely—that ____3____ “is a leaf katydid (螽斯)!” It uses its shape and green color to ____4____ a plant.

From forests to oceans, these ____5____ animals show how living things live in their homes. Next time you're outside, play hide-and-seek with nature.

Passage 3

仔细阅读下面短文，用下方框中所给的单词或短语填空，使短文在结构、句义和逻辑上正确。(提示：方框中有二个单词或短语是多余的。)

years/kite/sea/look at/has/important/funny

People have used wind power for thousands of ____1____. This clean and renewable energy (可再生能源) plays a(n) ____2____ role in making electricity. People often build wind turbines (涡轮机) on the mountains. The big wind turbine looks simple, but in fact it ____3____ nearly 8,000 parts in it. Please ____4____ the picture on the left. There are even wind turbines in the ____5____. People use them for different purposes.
